1 Safety first

> **Important** Read these points before you start. Ignoring them can cause injury, leaks or damage that the warranty does not cover.

- ✓ Turn off the water supply before you start, and keep it off until all joints are tight.
- ✓ We recommend installation by a qualified plumber.
- ✓ Wear gloves. Cut steel edges and stone edges can be sharp.
- ✓ Lift heavy items with two people.
- ✓ Before drilling or cutting, check for hidden pipes and electric wires.
- ✓ Do not stand or sit on sinks or basins, and do not let children hang on faucets or accessories.

2 Know your product

This manual explains how to install, use and look after your Fossa overhead shower. Keep it with your invoice.

- ✓ Large overhead design for wide full-body water coverage
- ✓ Creates a smooth, relaxing spa-style rainfall experience
- ✓ Rust-proof, durable, and long-lasting material
- ✓ Chrome finish enhances shine and protects against corrosion
- ✓ Prevents limescale and mineral buildup
- ✓ Ensures smooth and consistent water flow performance
- ✓ Built-in rotating joint for easy angle adjustment
- ✓ Position the shower direction exactly as preferred
- ✓ Advanced flow channels help maintain balanced water pressure
- ✓ Ideal for wide rainfall coverage and smooth shower performance

3 What is in the box

1. 1 × Ultra 12x12 Inches Overhead Shower (304 Stainless Steel)
2. Chrome Finish Protection Layer
3. Silicone Anti-Clog Rain Nozzles
4. Wall Mount Flange & Fittings

4 Specifications

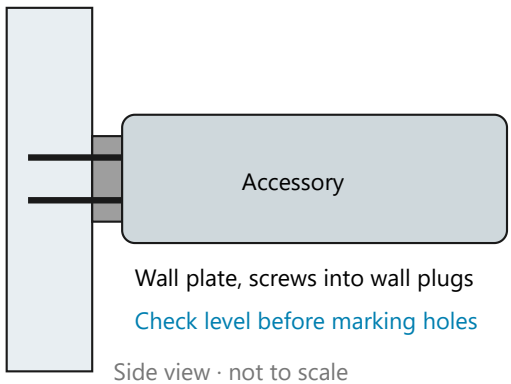

Model / SKU	ULTR-005
Product type	Overhead shower
Overall size	12 × 12 in
Material	304-grade stainless steel
Colour / finish	Chrome
Shipping weight	0.9 kg

5 Installation

> Fit the shower arm into the wall outlet first, then screw the shower head onto the arm.

Tools you will need

- PTFE (Teflon) tape
- Adjustable spanner and a soft cloth
- Ladder

Side view · not to scale

1. **Turn off the water** Close the shower supply or the main supply.
2. **Fit the arm** Wrap PTFE tape on the arm thread and screw it into the wall outlet. Fit the wall flange over it. (Skip if you reuse your existing arm.)
3. **Fit the head** Check the rubber washer is in the head, then screw it onto the arm by hand. Use a spanner over a cloth only for the last quarter turn.
4. **Level and test** Adjust the head so it faces down. Run the water and check the joints for drips.

6 How to use

Using the shower

1. Turn on the shower at your mixer or valve.
2. Tilt the head to aim the spray, if it has a ball joint.
3. Turn the face or lever to change the spray mode, if your model has more than one.

7 Care and cleaning

- ✓ Clean the shower surface regularly using mild soap and a soft cloth to maintain shine and avoid water spots.
- ✓ Do not use harsh acids, bleach, or abrasive scrubbers to protect the chrome-plated finish.
- ✓ Press or wipe the silicone nozzles occasionally to remove mineral buildup and ensure steady water flow.
- ✓ Check shower connections periodically to maintain a secure and leak-free setup.
- ✓ Avoid using excessive force when adjusting the shower direction to preserve long-term performance.
- ✓ Ensure your water supply is filtered or soft to help extend nozzle and internal channel life.

8 Troubleshooting

Problem	Likely cause	What to do
Uneven spray	Nozzles blocked by hard water.	Rub the rubber nozzles with your finger, or soak the face in diluted vinegar.
Leak at the joint	Washer missing or not enough PTFE tape.	Re-fit with the washer and fresh PTFE tape.
Low flow	Low supply pressure.	Clean the nozzles. In low-pressure homes, a pump helps.

9 Warranty and support

Return or replacement	See the Returns & Warranty tab on the product page for the return window

How to make a claim

1. Keep your invoice or order number. It is your proof of purchase.
2. Take clear photos or a short video of the problem, and a photo of the product label or SKU.
3. Contact us by WhatsApp, phone or email with your order number and the photos.
4. Our team checks the claim and arranges a repair, part or replacement.

The warranty does not cover

- Damage from wrong installation, misuse, accidents, or dropping the product.
- Damage from harsh chemicals, abrasive cleaners or very hard water left on the surface.
- Normal wear, such as worn washers, and scratches from daily use.
- Products changed or repaired by someone other than Fossa.
